Re: Parcel # «Parcel_Number» Location: «Location»

Dear Property Owner/Utility Operator;

The City of Milton is planning to repave and update utilities in the following areas at or near your property/facilities this summer:

- Windsor Court starting at W. Madison Avenue and continuing to the end of Windsor Court.
- Front Street from W. Madison Avenue through the intersection with Elm Street.

This possible work may take place sometime between April and October.

Curb and gutter replacement is part of this project. Sections to be replaced will be marked with pink paint. Replacement curb and gutter is eligible to be assessed at ½ the cost of replacement. The Common Council will conduct a public hearing to discuss and determine assessments once bids are received and costs are known. A Public Hearing Notice will be sent to effected property owners at a later date.

If you are planning any water service or wastewater sewer lateral improvements, these should be done prior to construction. Once the city's construction is complete, only emergency repairs are allowed in the right of way for the next 5 years.

If you have questions, please call 608-868-6914 or email to hrobinson@milton-wi.gov.

Sincerely,

Howard Robinson

Director of Public Works

Enclosures: Curb and Gutter Assessment Ordinance
